

# ALL BATTERIES RANGES

## AGM VRLA

FIAMM AGM batteries have optimized internal gas recombination and are maintenance free without topping up. They are non-spillable, non-hazardous for transportation and 100% recyclable.

## AGM VRLA SSLA

The SSLA battery range has been designed to cover a wide range of applications. The footprint of products are ideal for critical installations. Connection is simple on smaller models sizes thanks to the easy 'fast-on' terminals.

## GEL VRLA

FIAMM GEL batteries are maintenance free and combine the benefits of a gelled electrolyte which provides a longer life and wider temperature operating range.

## FLOODED

FIAMM vented batteries are available for several discharge profiles and for applications with unstable grid and deep discharge rate. Minimum maintenance and topping up are required.
